2012 Dog Licenses

January 2012 signals the beginning of a new licensing year. As of the end of December (date yet to be determined by the counties), 2012 Dog Licenses will be available for purchase. A copy of the application has been sent to you with this newsletter. It may be mailed to your county's tax office with a check for \$6.45 and a self addressed stamped envelope. You may also purchase one at your county's authorized agents. Again, this information does not apply to dogs that have a lifetime license. *If your dog is micro-chipped or tattooed, he or she still needs to be licensed with the county!* Your pup is to be licensed in the county in which you reside.

When you receive your new license, **PLEASE** give us the number. Should the dog warden come in and check, unlicensed dogs' owners will be subject to a \$300 fine. The warden has authorized us to keep license numbers on file for dogs that do not wear tags to day care.

Gift Certificates

Parents asking what they can get you this holiday? How about a gift certificate!? Available in any denomination, they can be applied to the purchase of a pass. We are able to process orders over the phone as well for "grandparents" out of the area!

The Royal Court of the Month

The Royal Court

Bella L., a Shepherd Mix, has completely come out of her shell in the past six months. Don't let her age fool you! Bella and her mom recently moved. We are so sad to see them both go!!

Vixen, a Siberian Husky, had been through a lot lately. She recently lost her Husky brother, and now she lost her own battle. We send our condolences to her mother Susan and her foster Husky Quesi.

I know this 'column' is normally dedicated to happier news, but these two pups definitely needed their 'shout-outs'. Sending hugs to both families.

Cleaning Supplies

We are so happy about the response to the new cleaning products! The disinfectants for the yard and indoor play area from ProVet Logic have been fabulous! No paw pad issues reported to us. And even better, we can continue to use these products when turf is installed. Please let us know if you have any additional questions about these products. Please feel free to ask any of the staff. You may also check them out at www.provetlogic.com. Thanks for your feedback!

Turf

It is still coming...I swear!

I may have jumped the gun a little when we announced earlier this year that we would be installing turf. A more reasonable timeline is looking at a Spring install. As we were nearing an order date, it became clear a little more prep was needed. This includes the installation of a new outdoor water spigot for our hose, the addition of more stone to create a deeper base under the turf, and the installation of a better wood border around the fence. So to make sure we don't cut any corners, we are getting started on the pre-turf duties now. It will be well worth it! Thanks for your patience.

New Loading Zone Sign in Dr. Cawley's old Drive Thru. Feel free to pull over to the right and park for safer unloading and loading of the kids!
